

CONTEXT

How worried are young people in EU23 about climate change?

The pan-European “**End Climate Change, Start Climate of Change**” #ClimateOfChange campaign, funded by the European Commission, aims to engage young Europeans in understanding the complex relationships between climate change and migration. Feeding into the www.climateofchange.info campaign, a survey of young people (15 to 35 years old) was conducted in 23 European countries. Between 29 October and 19 November 2020, in total 22,377 interviews were completed across the 23 countries.

Views on most serious problems facing the world

EXPECTATIONS ON GOVERNMENT ACTION

How do young people judge government inaction on climate change?
